Trade name: Sandblasting material CORUNDUM

Dangerous components:

1344-28-1 aluminium oxide

4 First-aid measures

Description of first aid measures

· General information No special measures required.

- After inhalation Supply fresh air; consult doctor in case of complaints.
- After skin contact immediately wash with water and soap and rinse thoroughly.
- After eye contact Rinse opened eye for several minutes under running water.
- After swallowing

Rinse out mouth and then drink plenty of water.

- If symptoms persist consult doctor.
- Information for doctor
 - **Most important symptoms and effects, both acute and delayed** No further relevant information available.
 - Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

• Extinguishing media

- · Suitable extinguishing agents
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- · Protective equipment: No special measures required.
- Additional information -

6 Accidental release measures

- · Personal precautions, protective equipment and emergency procedures Not required.
- Environmental precautions: No special measures required.
- Methods and material for containment and cleaning up: Pick up mechanically.
- Reference to other sections

No dangerous substances are released.

See Section 8 for information on personal protection equipment.

7 Handling and storage

· Handling

- · Precautions for safe handling No special measures required.
- · Information about protection against explosions and fires: No special measures required.

(Contd. of page 2)

- · Conditions for safe storage, including any incompatibilities · Storage
 - · Requirements to be met by storerooms and receptacles: No special requirements.
 - Information about storage in one common storage facility: Not required.
 - · Further information about storage conditions: None.

• Specific end use(s) No further relevant information available.

8 Exposure controls/ Personal protection

• Additional information about design of technical systems: No further data; see section 7.

· Control parameters

Components with limit values that require monitoring at the workplace:

1344-28-1 aluminium oxide

- EL TWA: 1,0 mg/m³ respirable, as Al
- EV TWA: 10 mg/m³
 - total dust

• Additional information: The lists that were valid during the creation were used as basis.

• Exposure controls

- Personal protective equipment
 - General protective and hygienic measures
 - The usual precautionary measures for handling chemicals should be followed.
 - · Breathing equipment: Not required.
 - · Protection of hands:
 - Check protective gloves prior to each use for their proper condition.
 - recommended Material of gloves
 - The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
 - · Penetration time of glove material
 - The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
 - For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:
 - Butyl rubber, BR
 - Nitrile rubber, NBR
 - **Eye protection:** Not absolutely necessary.
 - **Body protection:** Light weight protective clothing

Information on basic physical and ch	emical properties
General Information	-
· Appearance:	Powder
· Form: · Color:	White
· Odor:	Odorless
Odor threshold:	Not determined.
· pH-value:	Not applicable.
Change in condition	
• Melting point/Melting range:	undetermined
Boiling point/Boiling range:	undetermined
· Flash point:	Not applicable
 Flammability (solid, gaseous) 	Not determined.
 Decomposition temperature: 	Not determined.
· Ignition temperature:	Product is not selfigniting.
· Danger of explosion:	Product does not present an explosion hazard. Not determined.
· Explosion limits:	
Lower:	Not determined.
· Upper:	Not determined.
· Vapor pressure:	Not applicable.
· Density at 20 °C (68 °F):	4 g/cm³ (33,38 lbs/gal)
 Bulk density at 20 °C (68 °F): 	1500 kg/m³
Relative density	Not determined.
Vapor density	Not applicable.
Evaporation rate	Not applicable.
· Solubility in / Miscibility with	la se buble
· Water:	Insoluble
· Partition coefficient (n-octanol/wat	ter): Not determined.
Viscosity:	
· dynamic:	Not applicable.
· kinematic:	Not applicable.
· Solvent content:	
· Solids content:	100,0 %
Other information	No further relevant information available.

10 Stability and reactivity

Reactivity No further relevant information available.

- · Possibility of hazardous reactions No dangerous reactions known
- **Conditions to avoid** No further relevant information available.
- Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: none

· Additional information: -

11 Toxicological information

· Information on toxicological effects

• Acute toxicity:

· LD/LC50 values that are relevant for classification:

1344-28-1 aluminium oxide

Oral LD50 >15.900 mg/kg (rat) (OECD 401)

Inhalative LC0/4h >2,3 mg/L (rat) (OECD 403)

Primary irritant effect:

• on the skin: No irritant effect.

· on the eye: No irritating effect.

· Sensitization: No sensitizing effects known.

• Additional toxicological information:

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

The substance is not subject to classification according to the latest version of the EU lists.

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

None of the ingredients is listed.

· NTP (National Toxicology Program)

None of the ingredients is listed.

• Reproductive toxicity Based on available data, the classification criteria are not met.

· Toxicity		
· Aquat	ic toxicity:	
1344-28-1	l aluminium oxide	
EC50/72h	>100 mg/l (algae)	
EC50/48h	>100 mg/l (daphnia)	
LC50/96h	>100 mg/l (fish)	
 Behavior 	ice and degradability No further relevant information available. in environmental systems: cumulative potential No further relevant information available.	(Contd. on pag

Mobility in soil No further relevant information available.
 Additional ecological information:

 General notes:
 Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

 Results of PBT and vPvB assessment

 PBT: Not applicable.
 vPvB: Not applicable.
 Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

• Recommendation Smaller quantities can be disposed of with household waste.

· Uncleaned packagings:

• **Recommendation:** Packaging can be reused or recycled after cleaning.

14 Transport information		
UN-Number DOT/TDG, ADR, ADN, IMDG, IATA	Void	
UN proper shipping name DOT/TDG, ADR, ADN, IMDG, IATA	Void	
 Transport hazard class(es) 		
· DOT, ADR, ADN, IMDG, IATA · Class	Void	
Packing group DOT/TDG, ADR, IMDG, IATA	Void	
• Environmental hazards: • Marine pollutant:	No	
 Special precautions for user 	Not applicable.	
 Transport in bulk according to Annex II MARPOL73/78 and the IBC Code 	of Not applicable.	
· Transport/Additional information:	-	
· UN "Model Regulation":	Void	

15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture No further relevant information available.
